

Help Out on State Natural Areas

Sugar River Wetlands Workday

Help the Upper Sugar River Watershed Association (USRWA) restore the Sugar River Wetlands State Natural Area during our series of "4th Saturdays" winter volunteer work days. Volunteers will be cutting and burning invasive species like buckthorn, honeysuckle and more to promote the growth of native plant species. It promises to be rewarding, fun, and a great way to experience the outdoors during the winter. Refreshments including hot chocolate and coffee will be available to fuel you through the morning. No skills needed you will be trained onsite.

Date: 4th Saturday of the month

Time: 9am-noon

Directions: Volunteers and work leaders will gather where Epic Lane and County View Road meet in Verona, overlooking the Epic Systems campus to the east and the Military Ridge State Trail to the west. An approximate address is 2517 Country View Road, Verona, WI 53593. [Google map.](#)

What to wear: Clothes that are OK to get beat up, gloves, sturdy footwear. There may be burning embers from fires so wear clothes that can get holes in them.

What to bring: Drinking water, loppers for cutting brush (optional).

Contact: If possible, please RSVP for the workday in advance by contacting Wade Moder at usrwa@usrwa.org or by calling 920-850-6902.
